LCWSD Main-Line inspection: Performed By: _____ Date: _____

Comments: _____

Installation Requirements: Individual **Sewer** connections shall utilize 4" SDR 35-SD Poly Vinyl Chloride pipe. Gasketed pipe is preferred. Minimum depth of bury is 18" (inches). Completion of line connection is subject to mandatory inspection by LCWSD personnel during regular business hours, 8-5 Monday through Friday. **Provide sketch of service connection on back to show main line connection.** All permits are the responsibility of the applicant. Warranty of installation is property owner/contractor responsibility. Any person(s) performing water and sewer excavation must have proof of insurance on file at the LCWSD office. All **Water** services require a District standard meter pit arrangement with meter, backflow prevention device and curb stop installed. These items are to be paid for by the customer and the ownership will be that of the District. Meter Pit is demarcation point. Abandoned or terminated services must be capped or plugged in an approved manner in order to prevent harms to the systems.
