Managers Report:

Tank Well #2 VFD and Electrical Installation:

General Manager Olson informed the Board that the Tank Well #2 VFDs and electrical components have been installed, and the well has successfully undergone pump testing. District Operators will continue testing over the next few weeks and collect the required samples, with completion expected by the end of the month. The District hydrogeologist will then prepare and submit the final documentation, including as-builts and sample results, to the Montana Department of Environmental Quality (DEQ) for review and approval.

Equipment RFP:

General Manager Olson informed the Board that the District Engineers have advertised Requests for Proposals (RFPs) for the Sequencing Batch Reactor (SBR) system that was selected by the Board, following public comment, at the August 21, 2025 meeting. The Engineers will review multiple equipment options and vendors before selecting the preferred system and initiating design, which is anticipated to begin in December 2025 or January 2026. The design phase and DEQ approval process for Phase II are expected to take approximately twelve months.

Headworks and Septage Receiving Buildings:

The buildings have been erected, and all underground piping has been installed. Electrical service has been plumbed into the buildings, and concrete floor pours are scheduled for completion this week. Roofing installation will also be completed this week. Windows are on order and will be installed promptly, allowing interior work to begin before winter weather sets in.

Water Rights – Territory 1889 (Discovery Land Group):

General Manager Olson reported that the water rights for Territory 1889 have been applied for under the District's name. This is a standard and efficient practice for developers, as water rights must be transferred to the District upon project completion. The initial 30-day comment period has closed, and the Department of Natural Resources (DNRC) is recommending approval. The next step will be a second 30-day comment period to allow for formal objections to any significant findings. This process is being funded by the developer, with the District reviewing the prepared documentation.

Employee Appreciation Dinner:

A date has been selected for the annual Employee Appreciation Dinner. Friday, December 5, 2025. Invitations will follow.

The meeting adjourned at 4:21 p.m.

Next Meeting Date: Tuesday, November 18, 2025

LAKESIDE COUNTY WATER & SEWER DISTRICT BOARD OF DIRECTOR'S MEETING January 21, 2025

PRESENT: Directors Marc Liechti, Todd Fleming, Kathy Martin, Jim Heim (2:40 PM), and employees Rodney Olson, General Manager, Rebecca Good, Secretary.

ABSENT: Roxanne Wadman

Director Liechti called the meeting to order at 2:00 PM

AGENDA: A motion was made by Director Martin to accept the agenda as presented. Director Fleming seconded, and motion carried.

PUBLIC COMMENT: There were six visitors. See exhibit I.

Jennifer Tipton with North Shore Water Alliance was the only visitor to participate in the public comment session. She handed out exhibits A-H on behalf of Mayre Flowers with Citizens for a Better Flathead.

APPROVAL OF MINUTES: The minutes of the December 17, 2024, Board meeting were reviewed. A motion was made by Director Fleming to accept the minutes as presented. Director Martin seconded, and the motion carried.

Wastewater Update – RPA Engineers: Robert Peccia and Associates engineers, Brad Koenig and Kaela Murphy, gave a wastewater project update to the Board. Brad informed the Board that they are currently working on the facility plan for Phase 2. He stated that it has been narrowed down to two options that were previously presented and discussed with the Board. He stated that they will compile a detailed cost estimate as well as a list of primary pros and cons to present to the Board for discussion and decision to move forward.

Jerry Lucas – Bierney Creek Water Tank: General Manager Olson informed the Board that developer, Jerry Lucas, has continued previous discussion of the development potential for his property on Bierney Creek Rd. General Manager Olson and the Board discussed a potential cost share for a new water tank on the property that could potentially replace the Lakeside Estates tank that is nearing its expiration date. There was discussion as to the location of the proposed new tank and the benefits to the northwestern portion of the District regarding water pressure as well as providing increased fire suppression. There was a discussion with the Districts engineer, Brad Koenig, about the different types of tanks as well as tank sizes that should be considered in discussions with Jerry Lucas. General Manager Olson discussed possible funding options that may be available for the Districts portion of the cost share. Director Liechti stated that the Board will need more information from the developer & District Engineer on the plan so the Board can make an informed decision.

FINANCIAL REPORT: The financial reports for December 2024 were presented by General Manager Olson. A motion was made by Director Fleming to approve the financial report. Director Martin seconded, and motion carried.

BILL APPROVAL: Accounts payable for December 2024 were reviewed, and expenses of note discussed. The credit card statement for December 2024 was also reviewed. A motion was made by Director Fleming to approve the bills presented. Director Martin seconded, and motion carried.

OLD BUSINESS:

LCWSD Bierney Creek Lots – Culvert Improvements: General Manager Olson informed the Board that he has received a quote from Tanner Smith Construction for \$10,600.00 to perform additional lot improvements for the Districts Bierney Creek Lots. Additional improvements will include installing a culvert, bedding and all labor. Director Martin made a motion to approve the additional lot improvements to the Districts vacant lots located at 237 & 239 Bierney Creek Rd., Director Heim seconded, and the motion carried.

NEW BUSINESS:

95 Sunnyside Ave – Somers – Annexation Discussion: General Manager Olson informed the Board that he has been approached by a potential buyer of three unannexed lots off Sunnyside Ave in Somers. The potential buyer stated that the seller stated that the lots were 'guaranteed service' due to a prior agreement. After some research, General Manager Olson was able to confirm that the lots were in fact told sewer service would be available when the road & sewer main was being developed. Director Heim noted that the prior 'promise' is irrelevant given the location of the sewer main. He pointed out that the Health Department would require them to be hooked up as the properties are all within 200 feet of the sewer mainline and contiguous with previously annexed properties.
